SGU – Grundsatzerklärung / Policy Statement

- In order to improve the performance of all processes in the company, the management, assuming its overall responsibility, has comprehensively defined the quality and SGU policy (safety, health and environmental protection) in accordance with the requirements of DIN EN ISO 9001 and the SCC regulations and used them as an instrument for Performance improvement set binding.
- The high quality of our products and services, a high level of occupational and plant safety as the basis for preventing personal injury and damage to property, preventing work-related health hazards and occupational diseases and avoiding environmental damage are the most important criteria of our corporate philosophy.
- The management defines criteria for the successful implementation of the integrated quality and SGU management system, formulates the necessary objectives and supports all employee activities that contribute to the fulfillment of these requirements.
- Securing and expanding our national and international business relationships on the basis of high quality and SGU standards are essential tasks for the continued existence of the company.
- All employees of team strahltech GmbH identify with this integrated management system and contribute to improving the company's performance through their responsible participation in it.
- The quality and SGU management system as an indicator for the implementation of the corporate philosophy has been given to all employees as mandatory instructions.
